AMENDMENT AND RESPONSE

Commissioner for Patents
Washington, D.C. 20231

Applicant has carefully reviewed the Office Action mailed December 22, 2000. Detailed comments to the Office Action are found in the Remarks section below. Amendments to the specification and claims are found in the following Amendments section.

IN THE SPECIFICATION

Please replace the following paragraph with the paragraph, as amended, below.
Applicant has enclosed a marked-up version of the below-amended paragraph in the appendix entitled "Marked-Up Version of the Amended Paragraph".

RECEIVED
MAR 28 2001
TC 2800 MAIL ROOM

On page 6, line 20, please replace the paragraph with the following:

Word line 112 passes body region 108 of access transistor 111 in isolation trench 114. Word line 112 is separated from body region 108 of access transistor 111 by gate oxide 116 such that the portion of word line 112 adjacent to body region 108 operates as a gate for access transistor 111. Word line 112 may comprise, for example, N+ poly-silicon material that is deposited in isolation trench 114. Cell 102D is coupled in a column with cell 102A by bit line 118.
